Dominic Walker

Senior Front End Developer at Uber

dom.walker1987@gmail.com

Summary

Senior Front End Developer proficient working for business of different size. I've gained great experience working with a range of clients, as well as working in house in a product based environment. I'm passionate about creating user friendly interfaces using the latest technologies and love to keep up to date with the shifting trends of the web development landscape.

Specialties include: HTML5, CSS3, Sass, OO Javascript, Responsive, ES6

Experience

Senior Front End Developer at Uber

June 2014 - Present

  - Build mobile first responsive websites on frameworks and platforms that suit the clients business and technical needs
  - Own the development and technical relationship for a number of Uber's clients
  - Work with these clients to improve website performance using metrics and testing
  - Re-defined the frontend boilerplate, tech stack, and coding standards
  - Develop frontend single page applications
  - Work with the UX and design teams to build interactive prototypes to validate our approach

  Sites I have worked on in my time at uber:
  http://www.gtnexus.com
  http://expert.gtnexus.com
  http://www.innovationlab.eastman.com
  http://www.landstar.com
  http://www.luciamagnani.com
  http://www.kfccareers.co.uk

  I have also completed work for clients on internal systems and sites that are not listed above.

  Technologies used: Backbone, OO Javascript, Angular, ReactJS, Redux, Drupal, PHP, ASP.NET, HTML5, CSS3, ES6, Grunt, Gulp, Webpack
